Hi Steven- Sorry for my delayed response to David's kind introduction!

I am President of Obria Medical Clinics of So Cal, we operate four California-licensed clinics in Orange and LA Counties and a mobile unit, offering affordable life-affirming women's health care services (pregnancy tests, ultrasounds, well-woman exams, STD/HIV testing and treatment, and full-term prenatal care). In addition to medical services, we provide free programs such as parenting classes, abortion-recovery, and adoption referrals with vetted partners. If you are familiar at all with the state of pro-life pregnancy clinics in the U.S., ours are quite advanced in terms of medical scope of services.

Over 80% of our patients are 200% below the federal poverty line (and Medi-Cal eligible). Currently, 98% of our funding comes from the generous support of pro-life Christian families and foundations.

I am very interested in learning if there are any HHS grants that we might qualify for in the areas of --

- 1) Women's healthcare
- 2) Prenatal care
- 3) Abstinence-based education programs for schools
- 4)) Licensed mental health wrap-around support for our patients, many of whom are victims of abuse in its many forms (domestic violence, child abuse, sex trafficking).
- 5) Parenting program support for new mothers and fathers from 0- 2 years of age.

I'm attaching a two-pager that more fully explains our ministry, as well as an overview brochure of our services.

Hoping we can connect for a 15-minute phone call to discuss the potential for HHS grant support!

Sincerely,

Clare Venegas
President
